

London Regional Cytology Training Centre

ONLINE Cytology for Colposcopists Course

This online Cytology for Colposcopists course has been approved by the BSCCP for Trainee Accreditation.

Developed by the London Regional Cytology Training Centre (LRCTC) the course provides detailed information on:

- Laboratory organisation and sample processing, including HPV testing and “virtual” laboratory tour
- Cervical cytology screening, reporting, and management protocols
- Cytology and microscopy of normal and abnormal cell components of the cervical sample
- MDT protocols and cervical cancer audit

The course is designed to meet the requirements of the trainee’s pathology experience in their understanding of practical laboratory processes and the viewing of cytology slides. The course structure is underpinned by case presentations, Q&A sessions, and an interactive quiz

The course is of 5 hours duration and will take place on **Friday 5th March 2021** and **Friday 24th September 2021 at £100 per person**. It has been accepted by BSCSSP as a recognised equivalent to face-to-face cytology laboratory training for both nurses and doctors training in Colposcopy.

How to Register
